MONTHLY REPORT-JANUARY 2023

Key Highlights

A total of 494,226 60-kilo bags of coffee valued at US\$ 67.35 million were exported in January 2023 at an average price of US\$ 2.27/kilo US cents 10 lower than US\$ 2.37 /kilo in December 2022, and US cents 30 lower than US\$ 2.57/kilo in January 2022. This was an increase of 23% and 9% in quantity and value respectively compared to the same month last year.

Farm-gate prices for Robusta Kiboko averaged UGX 2,200 per kilo; FAQ UGX 5,900 per kilo, Arabica parchment UGX 8,500 per kilo and Drugar UGX 7,500 per kilo.

Coffee exports for 12 months (February 2022-January 2023) totaled 5.72 million bags worth US\$ 865.34 million compared to 6.72 million bags worth US\$ 741.03 million the previous year (February 2021-January 2022). This represents a decrease of 15% in quantity but an increase of 17% in value.

78% of the total volume was exported by 10 exporters, out of 54 companies which performed during the month, compared to 71% in December 2022.

Mt. Elgon PB fetched the highest price at US \$ 8.71 per kilo.

1. Coffee exports

Coffee exports in January 2023 amounted to 494,226 60-kilo bags worth US\$ 67.35 million as shown in Fig 1. This comprised 412,282 bags of Robusta valued at US \$49.57 million and 81,944 bags of Arabica valued at US\$ 17.78 million (see Table 1 and Annex 1). This was an increase of 22.97% and 8.74% in quantity and value respectively compared to the same month last year.

By comparing quantity of coffee exported by type in the same month of last Coffee Year (January 2022), Robusta increased by 30.91% and 23.84% in quantity and value respectively, while Arabica exports decreased by 5.75% and 18.85% in quantity and value respectively.

Despite most regions experiencing drought in most regions, monthly coffee exports performance was higher than the previous year. This was mainly driven by exporters who off-loaded coffee from their warehouses as the global Robusta market started correcting upwards on account of reduced global supplies from major origins, Vietnam and Brazil. Arabica exports were lower compared to the same month last year as this is an off-year of the biennial cycle characteristic of Arabica coffee.

Coffee exports for 12 months (February 2022-January 2023) totaled 5.72 million bags worth US\$ 865.34 million compared to 6.72 million bags worth US\$ 741.03 million the previous year (February 2021-January 2022). This represents a decrease of 15% in quantity but an increase of 17% in value.

6. Global Situation

World coffee production for 2022/23 is forecast to rebound 6.6 million bags from the previous year to 172.8 million due primarily to Brazil's Arabica crop entering the on-year of the biennial production cycle. Global consumption is expected to rise 800,000 bags to 167.9 million, with the largest gains in the European Union, the United States of America and Brazil. World coffee bean exports are forecast 3.0 million bags lower to 116.1 million as losses in Brazil, Vietnam, and India more than offset gains in Honduras and Colombia. Ending stocks are expected 1.5 million bags higher to 34.1 million. (United States Department of Agriculture, Coffee: World Markets and Trade report).

7. Local Situation

During the month of January 2023, farm gate prices ranged from Sh.2,000-2,400/= per kilo of Kiboko (Robusta dry cherries); Shs. 5,600-6,200/= for FAQ (Fair Average Quality); Sh. 8,000- 9,000/= for Arabica parchment; and Sh. 7,000-8,000/= per kilo for Drugar from Kasese. Robusta Kiboko averaged UGX 2,200/= per kilo; FAQ UGX 5,900/= per kilo, Arabica parchment UGX 8,500/= per kilo and Drugar UGX 7,500/= per kilo.

8. Coffee Development and Promotional Activities

The month of January 2023 was characterized by dry conditions especially in Northern and Western regions with light scattered showers received in Elgon, Central, Rwenzori and Eastern regions. However, this caused moisture stress on newly planted coffee fields. Greater Masaka was exceptionally dry with occasional rains that were erratic thus destroying crops, animals and property. However, South-western received near normal rainfall across the sub regions which favored farming activities. Pests and disease surveillance studies were conducted and notable was the high infestation of Black Coffee Twig Borer (BCTB) in most coffee regions. Coffee leaf rust increased slightly above the Economic Injury Level in Elgon, while Mealy bugs in old un-stumped trees were observed in Northern, Elgon and Western regions. The technical team from NaCORI and UCDA organized a training for field staff in Greater Masaka on the use of the NARO Black Coffee Twig borer (BCTB) trap. Meanwhile, 2,800kg of copper-nordox (800kg in Northern, 2000kg in Elgon) were delivered to help in the control of leaf rust, and 160 boxes @500 sachets of imidachroprid in Eastern region for demonstrating the management and control of BCTB on selected demonstration gardens.

Held nine (9) radio talk shows putting emphasis on coffee quality management, good harvesting and post-harvest handling, stumping of old less productive trees, PHH, management of demo gardens, pests and disease control. In Western region, coffee promotional campaigns on domestic coffee consumption were conducted at kakeka play-grounds on the 26th January 2023 during the 37th NRM day celebrations held in Kakumiro district serving about 400 people with coffee. A joint farm visit was conducted in Mubende and Kibaale districts with senior researchers from NaCoRI to assess farm performance and management of pests and diseases by the farmers. Throughout the month of January 2023, UCDA inspected and registered coffee value chain actors as follows: 67 factories (23 in Western, 7 in Elgon, 27 in Rwenzori, 10 in South-western); 86 buying stores (28 in Elgon, 18 in Rwenzori, 40 in Greater Masaka); 47 hullers (1 in Elgon, 46 in Greater Masaka); 5 wet mills (4 in South-western, 1 in Elgon); 1 roaster in Elgon and 62 traders trained on post-harvest handling (42(41M,1F) in Western, 20(10M,10F,8Y) in Central). However, of the inspected in Greater Masaka, 8 hullers and 2 buying stores were sealed for non-conformance i.e. hulling wet coffee, no processing license, un approved factory structure among others. Registered 49 buying stores (3 in Elgon,15 in Rwenzori, 23 in Greater Masaka, 8 in Eastern); 48 hullers (24 in Rwenzori, 23 in Greater Masaka, 1 in Eastern); 2 roasters (1 in Elgon, 1 in Eastern); 2 traders in Rwenzori.

9. Outlook for February 2023

Coffee exports are projected to be 480,000 bags. The main harvesting season in Central and Eastern regions which started in October is likely to begin tailing off in February due to a short main harvest. Exporters are likely to continue to drawdown on their stocks to fulfil contractual obligations with buyers abroad.
