- 1.2 Procurement will be undertaken in compliance with the Public Procurement and Disposal of Public Assets Act, 2003 and Regulations, 2014.
- 1.3 The Instructions to Consultants (ITC) should be read in conjunction with the PDS. The subject and procurement reference number, and where applicable the number of lots of this Request for Proposals Document are provided in the PDS.
- 1.4 Throughout this Request for Proposals Document:
 - (a) the term “in writing” means communicated in written form with proof of receipt;
 - (b) if the context so requires, singular means plural and vice versa;
 - (c) “day” means working day, and “month” means working month.

2. Source of Funds

- 2.1 The Procuring and Disposing Entity has an approved budget from Government funds towards the cost of the procurement described in the PDS. The Procuring and Disposing Entity intends to use these funds to place a contract for which this Request for Proposals Document is issued.
- 2.2 Payments will be made directly by the Procuring and Disposing Entity and will be subject in all respects to the terms and conditions of the resulting contract placed by the Procuring and Disposing Entity.

3. Corrupt Practices

- 3.1 It is the Government of Uganda’s policy to require that Procuring and Disposing Entities, as well as Consultants, observe the highest standards of ethics during procurement and the execution of contracts. In pursuit of this policy, the Government of Uganda;
 - (a) defines, for the purposes of this provision, the terms set forth below as follows:
 - (i) “corrupt practice” means the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value, to influence the action of a public official in the procurement process or in contract execution;
 - (ii) “fraudulent practice” is any act or omission, including a misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain a financial or other benefit or to avoid an obligation;

Part 1: Section 1 Instructions To Consultants

- designed to achieve an improper purpose, including to influence improperly the actions of another party;
- (iv) “coercive practice” is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party;
- (b) will reject a recommendation for award if it determines that the Consultant recommended for award has engaged in corrupt or fraudulent practices in competing for the Contract;
- (c) will suspend a Consultant from engaging in any public procurement proceeding for a stated period of time, if it at any time determines that the Consultant has engaged in corrupt or fraudulent practices in competing for, or in executing, a Government contract.
- 3.2 Furthermore, Consultants shall be aware of the provision stated in Sub Clause 15.1(g)-(h) and Sub Clause 2.2 of the General Conditions of Contract.
- 3.3 In pursuit of the policy defined in Sub-Clause 3.1, the Procuring and Disposing Entity may terminate a contract or be ordered by the Public Procurement and Disposal of Public Assets Appeals Tribunal to cancel a contract if it at any time determines that corrupt, fraudulent, collusive or coercive practices were engaged in by representatives of the Procuring and Disposing Entity or of a Consultant during the procurement or the execution of that contract.
- 3.4 In pursuit of the policy defined in Sub-clause 3.1, the Code of Ethical Conduct for Bidders and Providers as provided in the bidding forms shall be signed by the Bidder and submitted together with the other bidding forms. The Government of Uganda may suspend a Consultant from engaging in any public procurement or disposal process for a period determined by the Public Procurement and Disposal of Public Assets Authority (herein referred to as the Authority), where the Consultant is debarred from the procurement processes of an international agency of which Uganda is a member.
- 3.5 Any communications between a Consultant and the Procuring and Disposing Entity related to matters of alleged fraud or corruption must be made in writing and addressed to the Accounting Officer of the Procuring and Disposing Entity.
- 4. Eligible Consultants**
- 4.1 A Consultant, and all parties constituting the Consultant, shall meet the following criteria to be eligible to participate in public procurement:
- (a) the Consultant has the legal capacity to enter into a contract;
- (b) the Consultant is not:

security contributions.

- 4.2 A Consultant may be a natural person, private entity, government-owned entity, subject to ITC Sub-Clause 4.6 or any combination of them with a formal intent to enter into an agreement or under an existing agreement in the form of a joint venture, consortium, or association. In the case of a joint venture, consortium, or association, unless otherwise specified in the PDS, all parties shall be jointly and severally liable. In the case of a consortium or association, the formal intent shall be by way of Memorandum of Understanding which shall be registered with the Registrar of documents if signed in Uganda or if signed outside Uganda, shall be notarized.
- 4.3 A Consultant, and all parties constituting the Consultant including sub-contractors and key professional staff, shall have the nationality of an eligible country, in accordance with Section 5, Eligible Countries. A Consultant shall be deemed to have the nationality of a country if the Consultant is a citizen or is constituted, or incorporated, and operates in conformity with the provisions of the laws of that country. This criterion shall also apply to the determination of the nationality of proposed subcontractors for any part of the Contract including related works or supplies.

5. Conflict of Interest

- 5.1 Government policy requires that Consultants provide professional, objective, and impartial advice and at all times hold the Procuring and Disposing Entity's interests paramount, without any consideration for future work, and strictly avoid conflicts with other assignments or their own corporate interests. Consultants shall not be hired for any assignment that would be in conflict with their prior or current obligations to other Procuring and Disposing Entities, or that may place them in a position of not being able to carry out the assignment in the best interests of the Procuring and Disposing Entity.
- 5.2 A Consultant may be considered to have a conflict of interest with one or more parties in this procurement process, if they:
- (a) have controlling shareholders in common; or
 - (b) receive or have received any direct or indirect subsidy from any of them; or
 - (c) have the same legal representative for purposes of this proposal; or

Part 1: Section 1 Instructions To Consultants

- of the Procuring and Disposing Entity regarding this procurement process;

 - (g) may be in conflict with another of their, or their affiliates' assignments by performing this assignment.

- 5.4 Consultants may be hired for downstream work, when continuity is essential, in which case this possibility shall be indicated in the PDS and the factors used for the selection of the consultant will take the likelihood of continuation into account. It will be the exclusive decision of the Procuring and Disposing Entity whether or not to have the downstream assignment carried out, and if it is carried out, which consultant will be hired for the purpose.
- 5.5 Any previous or ongoing participation in relation to the assignment by the Consultant, its professional staff, or its affiliates or associates under a contract with the Procuring and Disposing Entity or the Government of Uganda may result in rejection of the proposal. Consultants should clarify their situation in that respect with the Procuring and Disposing Entity before preparing the proposal.

11. Preparation of Proposals

- 11.1 Consultants are required to prepare and submit separate technical and financial proposals. - 13.7 The Procuring and Disposing Entity will not consider substitutions unless both parties agree that undue delay in the procurement process makes such substitution unavoidable or that such changes are critical to meet the objectives of the assignment. 15.5 The completed financial proposal forms will be used to compile the Breakdown of Contract Price in any resulting Agreement as adjusted if necessary during evaluation or negotiation. The Breakdown of Contract Price will determine prices for any additional Services or costs.

TERMS OF REFERENCE COFFEE PROMOTIONAL STRATEGY FOR UGANDA COFFEE IN UNITED ARAB EMIRATES (UAE).

Introduction

1.1 Background

The Uganda Coffee Development Authority (UCDA) is a statutory body established by an act of Parliament in 1991 as amended in 1994 Cap 325 under the Laws of Uganda. This Act was repealed in 2021 by enactment of the National Coffee Act 2021, Instrument Number 17. The Authority is mandated to regulate, promote and oversee the coffee sub-sector; to provide for the Authority to regulate all on-farm and off-farm activities in the coffee value chain; to provide for a coffee auction system; and for other related matters.

Coffee is one of Uganda's main foreign exchange earners contributing 11-17% of commodity exports in the last 11 years i.e. averaging 14% over the period. It is a strategic commodity since it is a key source of farmers' incomes and provides employment to about 1.8 million¹ households in addition to another over 2 million people who earn incomes from coffee as farm workers, processors, input suppliers, traders, and transporters along the coffee value chain (IFPRI, 2007; Mbowa et al., 2014). According to The World Bank (2011) and Oxfam (2002), coffee production enables households to earn cash incomes thereby enabling them to meet their basic food requirements and reducing poverty.

United States Department of Agriculture² (USDA) estimated global coffee production for Coffee Year 2021/22 to be 167.1 million bags, lower than 176.36 million bags the previous year. On the other hand, global consumption is estimated to rise by 2% to 165.2 million bags with consumption in exporting countries growing by 4% to 43.8 million bags³.

If this trend in global consumption continues, the coffee sector will have to triple the current world production to 300 million bags of coffee by 2050 (World Coffee Research Report, 2017). However, the current production systems can only meet 80% of this demand, leaving a deficit of 60 million bags. The increased global demand for coffee creates an excellent opportunity for Uganda to fill the demand gap coupled with an increasing demand for the quality fine Robusta.

Part 2: Section 6. Statement of Requirements

1.2 Current state of affairs in the Coffee sector:

Coffee production in Uganda has increased from 4.0 million bags in FY 2015/16 to 8.1 million in FY 2020/21, an increase of 100%. This is on account of the coffee planted in the last 5 years which has started yielding. In FY 2021/22, Uganda exported 6.3 million 60-kilo bags of coffee worth US\$ 862 million compared to 3.56 million bags worth US\$ 352 million in FY 2015/16, an increase of 74% and 145% for quantity and value exported respectively.

Coffee exports to United Arab Emirates (UAE) have increased from 759 bags worth US\$ 114,382 in FY 2018/19 to 15,561 bags valued at US\$ 2.31 million in FY 2021/22, a 1,950% and 1,915% increase in exports and value respectively. Coffee exports to the Arab countries such as UAE, Saudi Arabia and Bahrain during the same period also increased from 5,887 bags worth US\$ 0.77 million to 38,417 bags valued at US\$ 5.87 million. This represents an increment of 553% and 666% for coffee exports and value respectively. This is a positive trend and justifies Uganda's focus in this strategic region.

Uganda participated in the Dubai Expo 2020 in May 2022 and feedback from the consumers in UAE on Uganda's coffee (both Robusta and Arabica) was overwhelming. UAE is strategically located as a business hub for the Arab countries and a link to Europe and Asia. It is viable venture for increasing coffee exports of given the increasing production. Currently Uganda has an undifferentiated market demand, with majority of coffee sold as a commodity (Commercial coffees) to traditional markets such as Italy, Germany, Spain, Belgium, Sudan, and USA. Though these markets have sufficed in the past, there is an untapped opportunity in non-traditional markets such as Algeria Morocco, the Middle East, Russia and China.

1.3 GoU policy on coffee sector

The GoU has developed a comprehensive Coffee roadmap aimed at accelerating coffee production from 3.5 million 60 kg bags in 2014 to 20 million bags by 2030. The Coffee Roadmap comprises of nine key transformative initiatives. Initiative Number 1 of the Coffee Roadmap of structured demand identified the Middle East as one of the emerging markets. Other emerging markets include: China, Maghreb countries and Russia.

According to the UCDA Annual reports, UAE account for a 4-year average of 0.1% of total Uganda's export value and ranged from 0.03% in FY 2018/19 to 0.27% in FY 2021/22. Although small, this figure is growing. This is driven mainly by a huge population of middle age people (30-44 years) which constituted 47.2% of the total population in 2019. With increased incomes and appetites for new tastes and lifestyles, consumption in UAE is expected to continue to grow.

The UAE instant coffee market was estimated at US \$ 67.574 million in 2020 and growing at a compound growth rate of 11.88% and expected to reach a market size of US\$ 148.311 million by 2027. There is increasing demand for freeze-dried and spray-dried instant coffee. The major driver of this growth is consumer awareness of the health benefits of drinking coffee through educational healthiness programs, events and publications like World Health Organization (WHO), use of e-commerce platforms, quick and easy preparation, variety of packaging options (bottles, cans, tetra packs in different volumes and pack sizes to suit consumer requirements. This is a

Part 2: Section 6. Statement of Requirements

great opportunity for Uganda which is in the process of establishing a soluble coffee plant.

Although in FY 2021/22, only 0.3% of Ugandan coffee was exported to UAE, there is a potential for growth.

Generally, Uganda's exports to the United Arab Emirates have grown from \$300 million since diplomatic relations were established in 2009 to \$1.85 billion in 2020. Exports are mainly precious minerals such as gold, high value crops, fish fillet and fish as well as labour.

On the other hand, UAE exported goods worth US\$ 518 million to Uganda including petroleum oils, oils from bituminous minerals, waste oils, motor cars and motor vehicles and cement.

It is therefore imperative to critically understand the tastes and preferences of UAE coffee consumers, market access requirements, competitors of Uganda in the UAE and Arab markets and develop a promotional strategy to increase penetration of Uganda Coffee in the UAE and Arab markets.

1.4 UAE – Uganda programmes and related activities

United Arab Emirates (UAE) has signed a number of economic partnerships with the Government of Uganda.

In 2018, Government signed a Memorandum of Understanding to enable farmers export more agricultural products to the United Arab Emirates whereby government would support small scale farmers across the country to improve the quality and quantity of their produce to enable them supply the highly sought after and competitive Dubai and UAE market.

In the MoU, the two countries agreed to strengthen and advance cooperation in the field of food security and advancing agriculture, and to cooperate in the exchange of information on agricultural and rural development policies; and to start a dialogue on creating food security and agricultural economic zones for UAE companies to invest and carry out large scale farming. The food security agriculture economic zone forms a minimum of 2,500 hectares for UAE exclusive zone.

The Middle East in general and the United Arab Emirates in particular have been a favoured trade partner for Uganda. Besides being a major source of oil, the United Arab Emirates has emerged as one of the largest suppliers of goods and services to Uganda. Trade between Uganda and the United Arab Emirates has been growing with the passing of each year. Many Ugandans are now flying regularly to Dubai to purchase goods and merchandise which are available at competitive prices.

2 Need for a Coffee Promotion Strategy for UAE

With the positive trend in coffee production and exports over the past 5 years as a result of Government of Uganda's deliberate intervention to boost productivity and production, it is imperative that new markets are developed. UAE provides an excellent opportunity as its prospects for increased coffee consumption are high as an international business hub connecting Asia to Europe.

Part 2: Section 6. Statement of Requirements

Uganda's involvement in the Dubai Expo 2020 held in 2022 provided an entry point for Uganda to penetrate UAE market and subsequently the Arab market. There are already close trade ties between Uganda and UAE as described above. Ugandan businessmen and women also consider Dubai as one of their major sources of goods.
