1. Coffee exports

Coffee exports in August 2022 amounted to 501,054 60-kilo bags worth US\$ 71.15 million as shown in Fig 1. This comprised 456,271 bags of Robusta valued at US \$60.26 million and 44,783 bags of Arabica valued at US\$ 10.89 million (see Table 1 and Annex 1). This was a decrease of 28.52% and 5.25% in quantity and value respectively compared to the same month last year.

By comparing quantity of coffee exported by type in the same month of last Coffee Year (August 2021), Robusta decreased by 28.31 % and 7.65% in quantity and value respectively. Arabica exports decreased by 30.60% in quantity but increased by 10.59% in value.

The decrease in exports was mainly attributed to lower yields this year that were characterized by drought in most regions. This led to a shorter main harvest season in Central and Eastern regions and also reduced harvests from Greater Masaka and South-Western regions.

Coffee exports for 12 months (September 2021- August 2022) totaled 5.93 million bags worth US\$ 871.76 million compared to 6.41 million bags worth US\$ 607.82 million the previous year (September 2020-August 2021). This represents a decrease of 7.49% in quantity but an increase of 43.43 % value.(Figure 1).

8. Coffee Development and Promotional Activities

The month of August 2022 was characterized by sufficient rains in Eastern, Elgon, Western and Rwenzori regions. The rainfall pattern favored new planting of short-term crops and coffee seedlings across these regions. Pests and diseases surveillance reports for Western, South West, Elgon, Eastern, Northern and Central regions indicated incidences of Coffee Wilt Disease (CWD), Red Blister, Coffee Leaf Rust (CLR), Coffee Berry Borer (CBB), Black Coffee Twig Borer (BCTB) and Root Mealy Bugs being most prevalent. Coffee farmers were advised on control and management of the pests and diseases using cultural, chemical and mechanical approaches. Farmers were encouraged to monitor gardens and report any new coffee pests and/or diseases. A total of 8,574kgs copper nordox fungicides were distributed to 1,030 farmers (791 male, 239 female and 99 youth); 352 kg in Elgon, 7317kg in Rwenzori to 487 farmers (374 male and 113 female); 905 kg to 469 farmers (352 male, 117 female and 92 youth) in Rwenzori. Additionally, a total of 1260 bottles of Tebuconazole were distributed to 136 farmers (115 male and 21 female).

Coffee specific extension outreach programme implemented by field teams slackened during the month due to a budget shortfall. Only 93 farmer trainings for 3,568 farmers (2659 male, 909 female and 380 youth) were conducted across the regions especially with the lack of seedlings to address new demand by coffee farmers. A total of 377 farm visits were conducted reaching 1,340 farmers (1,125 male, 215 female and 121 youth). Coffee stumping of 30,700 old and unproductive coffee trees continued in Western region whereby 43 parish coffee demo gardens (39 male and 4 Female) on stumping were monitored and their performance documented. Farmer support activities in Western region were also complemented by 19 radio talk shows focusing on coffee rehabilitation, good agronomic practices, good harvesting, post-harvest practices and the National Coffee Act, 2021. Stakeholder engagement involved inspection of 35 traders; (9 in Western, 26 in Greater Masaka), 49 primary processors (3 in Western, 41 in Rwenzori, 5 in Central), 29 stores; (11 in Rwenzori, 18 in Central) and the registration of 4 traders, 12 primary processors and 22 stores.

9. Outlook for September 2022

Coffee exports are projected to be 450,000 bags. The main harvesting period season in Greater Masaka and South western regions is at its tail end. It was affected by a dry spell especially in Bukomansimbi and Sembabule districts. Exporters are likely to drawdown their stock levels to fulfil contractual obligations with the buyers.
