**London International Financial Futures and Options Exchange (LIFFE) Robusta coffee futures** closed mixed on Friday. March position closed lower at \$ 3,852 per ton losing US\$ 5 while May position closed higher at \$ 3,795 per ton gaining US\$ 1 from the previous closing.

**Inter Continental Exchange (ICE) Arabica coffee futures:** Closed slightly higher across the board on Friday. March position closed at US cents 300.05 per lb gaining 0.40 US cents while May position closed at US cents 298.30 per lb gaining 0.85 US cents over the previous closing.

Coffee prices moved higher for a second day on Friday, with Robusta posting a 1-week high. Last week's slump in coffee prices to 6-month lows sparked buying interest from coffee roasters, pushing prices higher, as they seek to rebuild low inventories.

Coffee prices have been under pressure over the past 2 weeks, with both Robusta and Arabica coffee falling to a 6-month low amid signs of a bumper Brazilian coffee crop. Conab, Brazil's crop forecasting agency, said last Thursday that Brazil's 2026 coffee production will climb by 17.2% over a year to a record 66.2 million bags.
