**London International Financial Futures and Options Exchange (LIFFE) Robusta coffee futures:** The market did not open due to a bank holiday in the United Kingdom. Figures used are for Friday's closing.

Robusta coffee for the moment has support from Vietnam's General Statistics Office report of last week which showed that the country's January-April coffee exports fell by 17.6% over the year to 563,000 MT. Vietnam is the world's largest producer of Robusta beans.

**Inter Continental exchange (ICE) Arabica coffee futures** Closed lower across the board on Monday. July position closed at US cents 140.25 per lb losing US cents 1.55, while September closed at US\$ 142.15 per lb losing US cents 1.25 over the previous closing. Arabica coffee on Monday fell back due to funds selling after the U.S. Climate Prediction Center said the current La Nina weather pattern is winding down and will disappear during the summer, which should boost the chances for rain and reduce drought concerns in North and South America.
